

ALTA WALL

Adobe Blend

Granite City Blend

Alta Wall is a versatile wall for everyday landscape applications. Its tapered design simplifies installation of inside and outside curves so you can design with freedom. The hollow core design and rear lip connection make this wall system a go-to system for professionals.

6" x 8" x 12"

24 Sq Ft on Pallet
48 Pcs on Pallet
Pallet Weight: 2,164 lbs

Maximum exposed height for gravity walls is 36" under ideal conditions. Soil type, crest slopes and surcharges will decrease max exposed height for gravity walls. Consult a professional engineer to determine site and specific colors.

NOTE: All walls over 2' in height or as required by local code should be designed by a licensed professional engineer. All measurements are nominal. Variance in square footage or linear footage coverage can be up to 5% depending on joint width. The possible occurrence of efflorescence does not affect the structural integrity of the product. Efflorescence is a normal occurrence in concrete products and will dissipate with normal weathering. The use of concrete as a base or setting bed may increase the possibility of efflorescence.
