

KODAH WALL

York Brown

Bluestone

Kodah Wall is a one-of-a kind large scale retaining wall system. Its modern, linear proportions combined with its rough, quarried stone texture make it perfect for a variety of applications. The Kodah Wall also makes it easier than ever to provide you with the big block look without the over-the-top installation costs.

6" x 21" x 10½"

Cap Sold Separately
Cap: 3" x 34" x 34"

Maximum exposed height for gravity walls is 36" under ideal conditions. Soil type, crest slopes and surcharges will decrease max exposed height for gravity walls. Consult a professional engineer to determine site and specific colors.

NOTE: All walls over 2' in height or as required by local code should be designed by a licensed professional engineer. All measurements are nominal. Variance in square footage or linear footage coverage can be up to 5% depending on joint width. The possible occurrence of efflorescence does not affect the structural integrity of the product. Efflorescence is a normal occurrence in concrete products and will dissipate with normal weathering. The use of concrete as a base or setting bed may increase the possibility of efflorescence.
