

ROCKFACE TREADS

These treads have a chiseled stone edge treatment on three sides making them the perfect finishing touch to any wall, step or pool coping. A thermal finish top surface gives them a smooth texture.

NOTE: All measurements are nominal. Variance in square footage or linear footage coverage can be up to 5% depending on joint width. The possible occurrence of efflorescence does not affect the structural integrity of the product. Efflorescence is a normal occurrence in concrete products and will dissipate with normal weathering. The use of concrete as a base or setting bed may increase the possibility of efflorescence.

CAUTION: Always use a plate compactor with a pad when installing any textured paving stone.
