

SERAFINA WALL

Fire Island Blend

Granite City Blend

The Serafina Wall's trapezoid shape and split face on two sides makes it a multifaceted solution for many hardscape applications. From straight and curved walls, single or two-sided borders for your garden, Serafina is a great option where walls less than three feet high are required. Available in colors for every home.

Pallet Weight: 1,519 lbs

4" x 10"/6" x 9"

*Premium Color

Maximum exposed height for gravity walls is 36" under ideal conditions. Soil type, crest slopes and surcharges will decrease max exposed height for gravity walls. Consult a professional engineer to determine site and specific colors.

NOTE: All walls over 2' in height or as required by local code should be designed by a licensed professional engineer. All measurements are nominal. Variance in square footage or linear footage coverage can be up to 5% depending on joint width. The possible occurrence of efflorescence does not affect the structural integrity of the product. Efflorescence is a normal occurrence in concrete products and will dissipate with normal weathering. The use of concrete as a base or setting bed may increase the possibility of efflorescence.
